

**Finger
protection
for improved
door safety**

Roller-Safe

The RTR finger protection range includes a number of different solutions and technologies for use on automatic and manual doors.

Roller-Safe is a tensioned roller blind style anti finger trap solution specifically designed for hinged and pivoting doors which is easy to install.

Recommended for use in commercial and public buildings, educational buildings, healthcare centres, schools and nurseries.

Unique hinged body design means no secondary trap hazard from the unit itself.

Product features

- Safety blind extends to over 200mm to cover most gaps between door and frame
- Simple screw fix with no visible screws
- Can be fixed to left or right handed opening doors
- Requires no maintenance other than a wipe down with a damp cloth for cleaning
- Tested to over 1 million open and close cycles
- Ideal for high traffic areas
- Demo video and further information visit: www.rtrservices.co.uk
